Project details

Name of project:

Location of project:

Awards category - Please indicate the category for which this entry is applied for?

Innovation

Refurbishment

New Build

1. Project Team - please indicate the design team as below from Project Inception Stage to Completion Stage.

Concept Architect

Executive/Delivery Architect

Main Contractor

Cladding Contractor

System Supplier etc.

Any other significant contributor (Fill NONE if not applicable)

2. Please provide date for practical completion:

Day Month Year

3. Project description - Please provide a brief description of the project scope. Please indicate your role and responsibilities in this project.

200 words maximum

4. Façade Design and Engineering excellence - Please demonstrate using examples of how this project has contributed to the field of facade engineering. Describe the project complexities and how they have been designed by engineering interventions.

200 words maximum

5. Technical Design - Please provide details for the technical performance (weather tightness, thermal efficiency, sustainable and environmental design, structural performance, fire, acoustic etc.) achieved by the façade.

200 words maximum

6. Sustainability and Environmental Impact - Please demonstrate whether the façade design has contributed to any aspect on Sustainable Built Environment. (Use of fabric first approach, use of renewable technology, carbon reductions, use of materials and construction methods with low embodied energy, pre-fabrication, local sourcing, water use reduction etc.).

200 words maximum

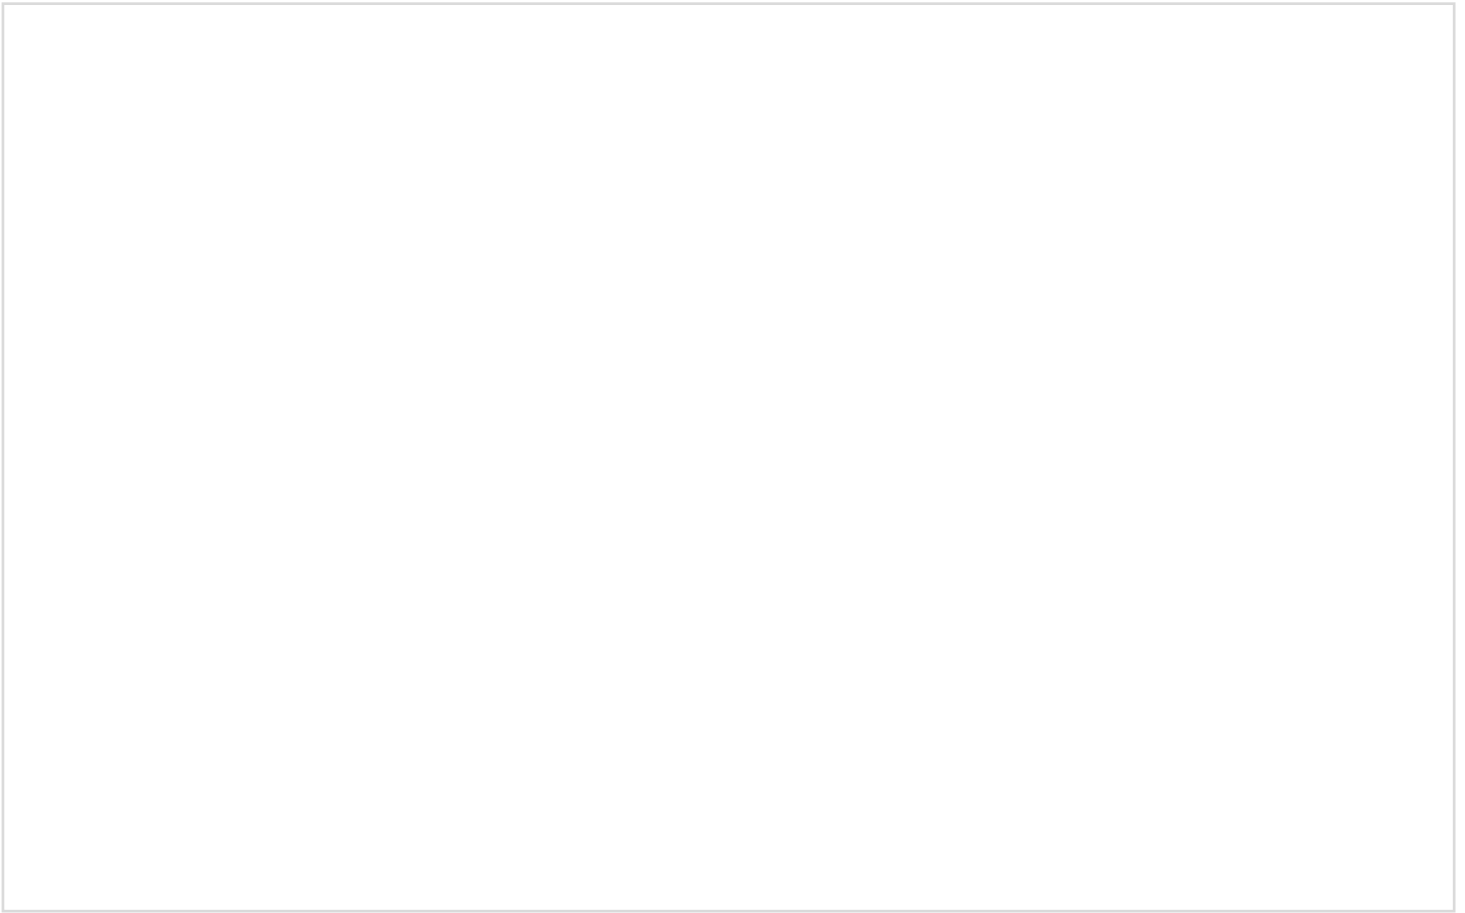

7. Architectural Merit - Please describe if the project has contributed to the Architectural and Urban Design for its surrounding context.

200 words maximum

8. Research Methods - Please provide evidence of research methods employed in the process of design development for this project.

200 words maximum

9. Integrated and Collaborated Design - Please indicate how the façade design and engineering has demonstrated aspects of integrated and collaborative design with other design elements on the project such as Structural, Mechanical, Health and Safety in Design etc.

200 words maximum

Images - the following pages are provided to upload 4 x project images and 4 x technical drawings.

10. Project Images (1 of 4) - Please upload a maximum of 4 project images to support your bid.

Image 1:

Description

10. Project Images (2 of 4) - Please upload a maximum of 4 project images to support your bid.

Image 2:

Description

10. Project Images (3 of 4) - Please upload a maximum of 4 project images to support your bid.

Image 3:

Description

10. Project Images (4 of 4)- Please upload a maximum of 4 project images to support your bid.

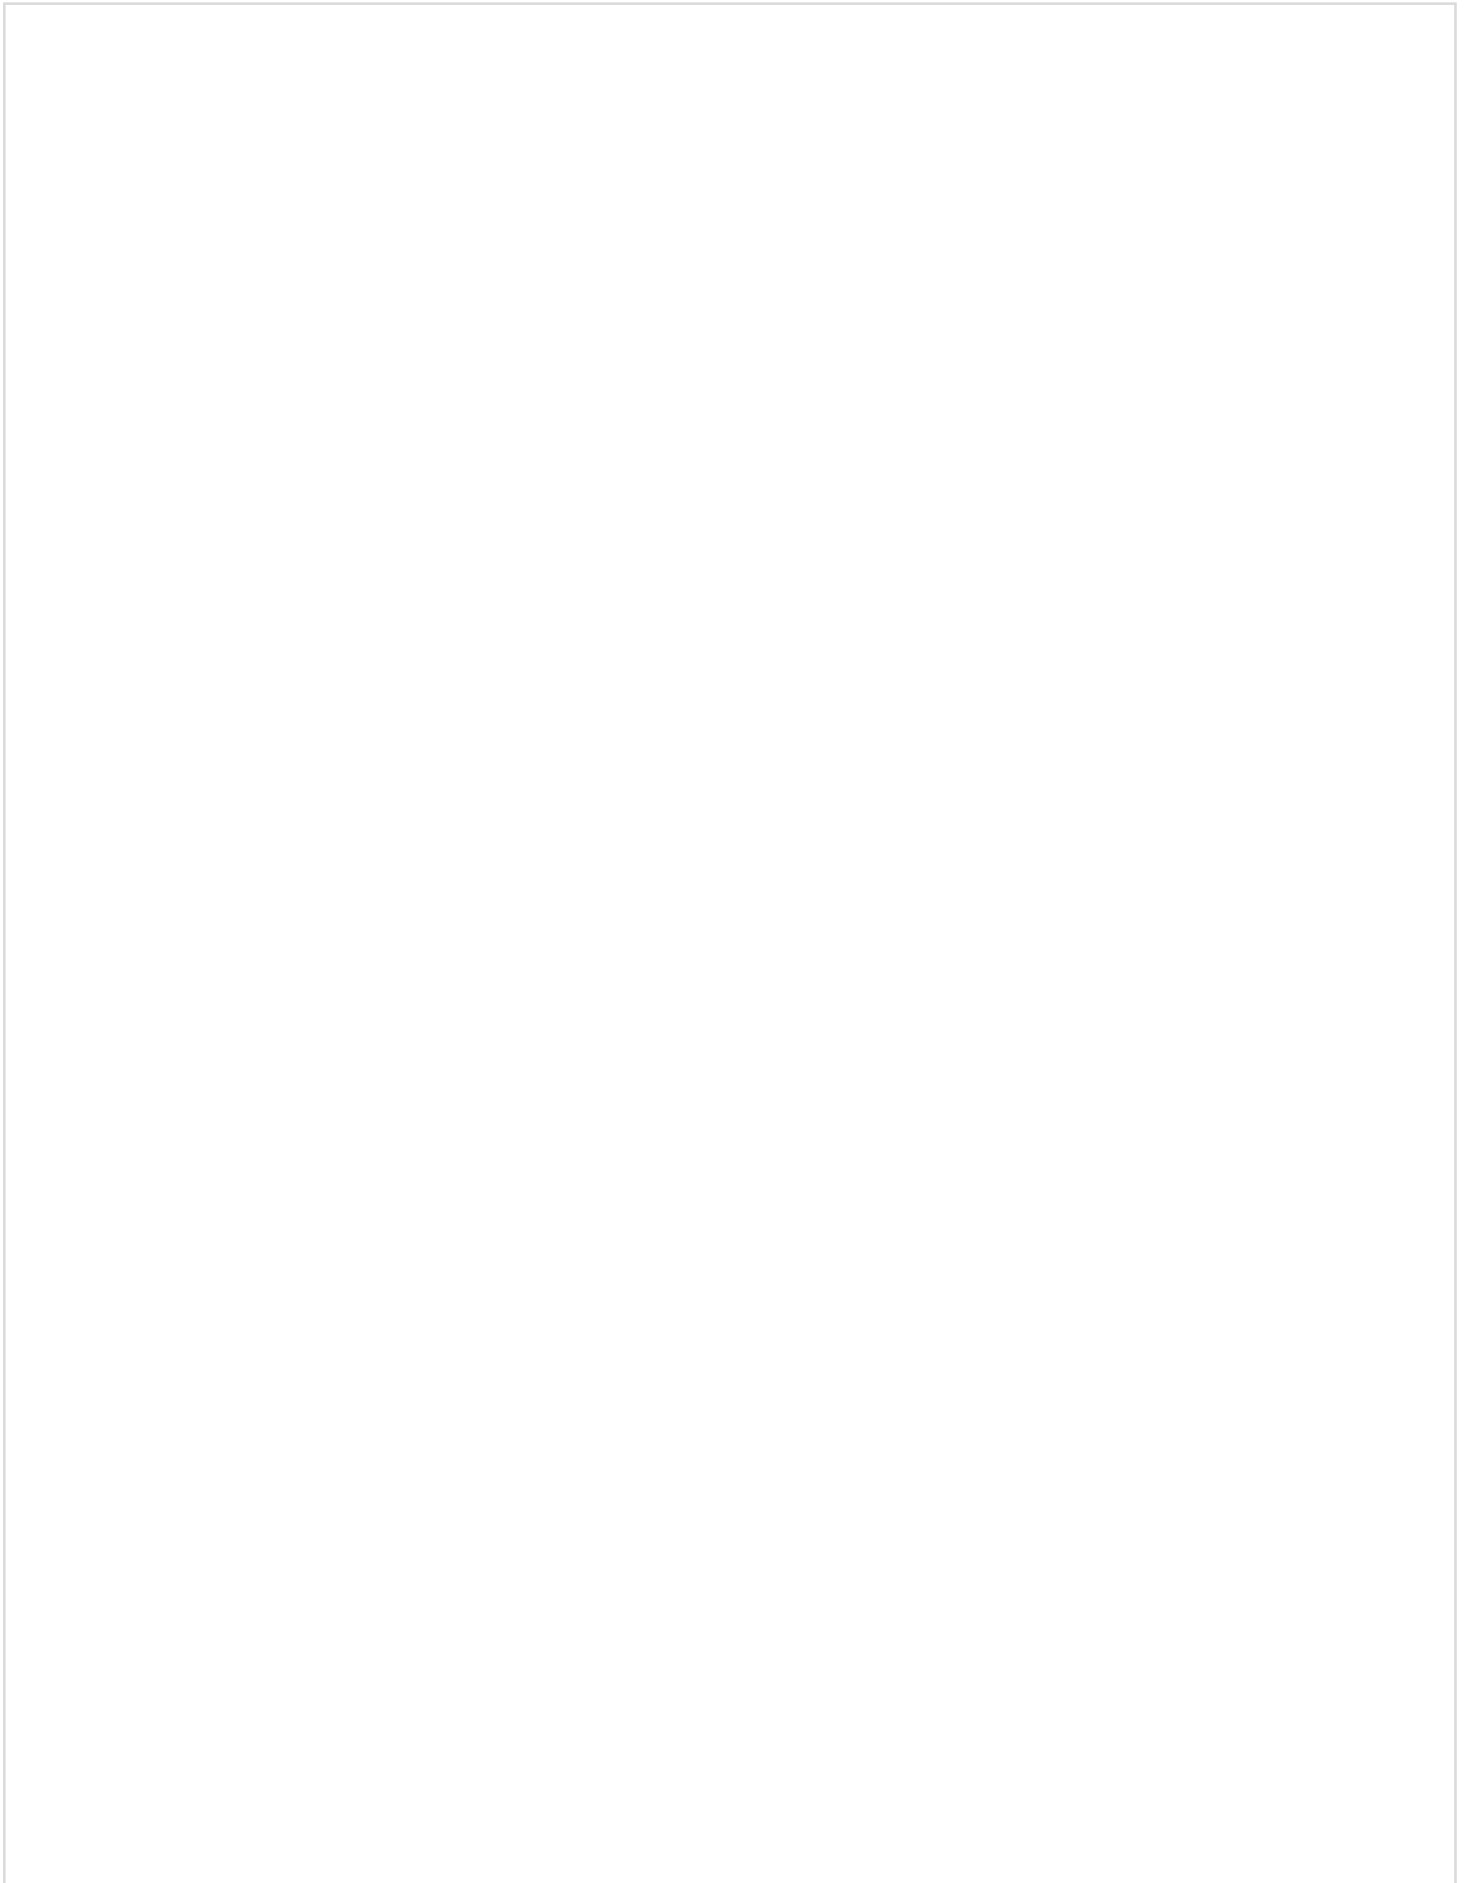

Image 4:

Description

11. Technical Drawings (1 of 4) Please upload a maximum of 4 technical drawings of key details. Technical drawings are mandatory for the submission and could be in form of sketches/CAD output for interface details, fabrication drawings etc.
